

# ***Uptown Row Condominium Association Detroit, Michigan***

## ***Some Reminders and Updates to Your Community, Clean and Tidy!***

**Garbage Canisters:** To be kept inside of the garage until such time as collection time is at hand (usually put out the night before). Friday is the scheduled pick up day, it is expected you will promptly return your can to the garage as not to become an eyesore.

**Barbecue Grills: To be kept inside of the garage except when in use. We also ask that you move the grill away from the building at least fifteen (15) feet. This will reduce the risk of damaging the buildings.**

**Parties:** While it is your right to give parties, no one else should have to bare the inconvenience of having to clean up after your parties. We have our own small piece of Detroit here and the most members are prideful of their home. We are asking that you to be more considerate of these issues moving forward. Be sure to keep the noise limit to a minimum and debris should be removed from the common grounds.

**Parking: Please be reminded that if possible, your vehicle should be parked in your personal garage or adjacent driveway. Curbside parking is not permitted within Uptown Row Association.**

**Pets:** Animals are not allowed to roam the community freely. Your pet must be leashed and attended by a responsible party at all time. Please remember to clean up after your four-legged friend on a daily basis. This will ensure a clean community for all in Uptown Row.

Remember to lock for your doors and shut your garage doors while not in use. Keep your porch lights on and have a keen eye for strangers in the neighborhood. We want you and your property to be safe.

***We remind everyone again, how important it is that we have each of your e-mail addresses and an emergency phone number for you.***

***Thank you for your understanding and help. We hope you all are having a wonderful summer.***
